RIDGEFIELD, CONNECTICUT

PRICE LIST

### GENERAL INFORMATION

**PRICES** in this catalogue cancel all previous listings and are subject to change without notice. Prices include loading on trucks at our nurseries, or are F.O.B. our shipping station. Except on very small packages shipped by parcel post, practically all material for shipment (by freight or express) must be packed in wooden boxes, in which case an additional charge will be made covering actual cost of material and labor.

**DELIVERIES**—We will endeavor to make truck deliveries within a reasonable radius of Ridgefield when and as availability of equipment and manpower permits. Charges for such service are based on the quantity of material involved and the distance same is to be transported. For transporting small orders within 20 to 50 miles of Ridgefield and for shipments to greater distances weighing not over 300 pounds, express shipment is fairly rapid and therefore most practical. Freight shipments of heavier materials in car lots or less, will be promptly executed.

**CLAIMS**—When stock is not delivered by our truck, our responsibility ceases upon delivery of material to the transportation company in good condition. Claims for damage while stock is in transit should be made promptly to the transportation company.

**TERMS**—Thirty days net to those whose responsibility is known to us, unless other arrangements are made at time of acceptance of order. All accounts are payable to Outpost Nurseries, Inc., and not to individuals.

**B&B**—Some plant materials may be planted successfully with bare roots, as indicated throughout this book. Other plant materials in certain sizes and varieties require digging with a ball of soil, so as not to disturb the root system. This ball of earth is securely wrapped and laced in burlap. This operation is referred to as "balling and burlapping"—B&B. Large and heavy balls are mounted on platforms.

All prices which include balling and burlapping are based on what we consider a "normal" ball, i.e., that sufficient for successful transplanting; caliper and/or size of the tree or plant considered.

Balls of greater diameter and depth than those normally used will be furnished where requested BUT AT A PROPORTIONATE ADDITIONAL COST.

**GUARANTEE**—It is our aim to furnish only material which is in a healthy growing condition. Any item found otherwise upon delivery will be promptly exchanged or credited if returned to us at once. Because of the many factors over which we have no control, we can not assume responsibility for the life or productiveness of materials planted by others. (Please note paragraph above re: claims.)

## OUTPOST NURSERIES, INC.

RIDGEFIELD, CONN.

TELEPHONE-RIDGEFIELD 800

## OUTPOST SERVICE

We are prepared to furnish on request, without charge, various illustrated and descriptive booklets dealing with the different phases of landscape planting. A post card stating your problem will bring the literature which we believe will be most helpful to you.

Printed by Acorn Press, Inc.

Silver Maple

Each

#### DECIDUOUS TREES

#### Deciduous Trees drop their foliage in late Fall and Winter.

EXCEPT in such varieties, where heights only are given, Deciduous Trees are measured by their caliper, i. e., the diameter of the trunk six inches above the ground for trees up to six inches caliper. Trees six inches, or over in caliper are measured one foot above the ground.

Sizes in caliper as catalogued include trees measuring the smaller size, or between the two sizes given, but do not include trees measuring the larger size. Example: Tree measuring  $3\frac{1}{4}$  inches rates as 3 to  $3\frac{1}{2}$  inches; tree measuring  $3\frac{1}{2}$  inches rates as  $3\frac{1}{2}$  to 4 inches.

Heights given with caliper measurements are general averages, and are approximate only. Where no caliper

appears, height is the governing measurement.

Acer dasycarpum

Caliper

Trees not marked "B&B" (Balled and Burlapped) can be moved with bare roots when dormant. Should balling and burlapping be desired on such Trees, an extra charge will be made at the following rates.

2-3 inches caliper—\$5.00 each 3-4 inches caliper—7.50 each 4-5 inches caliper—10.00 each

See General Information for further details on balling and burlapping.

#### Hansen's Siberian Crab.

#### Hansen's Mayday Tree.

These are introductions of Carl A. Hansen of South Dakota.

Siberian Crab—Height, 15-18 ft.; green slightly cut foliage; single pink and white flowers in profusion in may, followed by edible red and yellow fruits, most useful in Jams and Jellies.

Mayday Tree—Height, 15-18 ft.; green foliage; large, fragrant, pure white flowers in late April and early May, followed by small cherry-like red fruits, useful in Jams and Jellies or for attracting the birds.

Prices for both varieties-

| Picea Pungens  | Colorado Spruce  |

#### Picea Pungens

Colorado Spruce

(The strain usually listed as p. pun. glauca—Colorado Blue Spruce—is included in this listing. Trees may be selected for desired color.)

NOTE:—As these Spruce run in a wide range of trunk diameters (calipers) the caliper measurement is the selling basis. Heights given are approximate for each trunk size.

| Caliper     | Height      | Each    | Per 10   |
|-------------|-------------|---------|----------|
| Under 5 in. | 2-3 ft.     | 4.00    |          |

#### DECIDUOUS SHRUBS

60.00

75.00

90.00

# Deciduous Shrubs drop their foliage in late Fall and Winter.

#### SPECIMENS:

16-18 ft.

18-20 ft.

20-22 ft.

22-24 ft.

Shrubs marked "Specimens" are exceptionally heavy and broad, having been cut back, and transplanted 4 to 6 feet apart.

Shrubs not marked "B&B" (Balled and Burlapped) can be moved with bare roots, when dormant. Should Balling and Burlapping be desired on such shrubs, an extra charge will be made as follows:

| 2-3 | ft. | \$<br>.50 |
|-----|-----|-----------|
| 3-4 | ft. | <br>.70   |
| 4-5 | ft. | <br>1.00  |
| 5-6 | ft  | 1.50      |

See General Information for further details.

#### ROSES

#### Hybrid Teas and Climbers

We do not grow our own Roses. A limited variety of these types will be available during the spring season through our Roadside Sales Garden, Route 7, at our nursery. Current list of varieties submitted on request.

## Miscellaneous Roses:

#### Rosa primula

#### Primrose Rose

A heavy growing shrub rose of upright habit, useful in hedges or screens.

#### FRUITS

Except for the Apple trees listed below we do not grow our own fruits. For spring planting we will have available a limited supply of one and two year old tree fruits, such as Apples, Cherries, Peaches, Pears, Plums and Quinces; as well as a general selection of berried fruits.

As the list of varieties available in all of our fruit stock is subject to change without notice, we prefer to furnish current list (with prices) on request.

The Apple trees here listed are all standard size—we have no dwarfs to offer.

#### APPLES
